Kannst du mir helfen? Ein Leben lang zu arbeiten, ist beknackt. Ich finde es schwierig, mich zwischen Familie und Arbeit zu entscheiden. Meine Familie braucht mich, aber ich muss auch mein Bestes geben, um meine Ziele zu erreichen. Was soll ich tun?###ARTICLELooking back at your own youth - a time when everything seemed simpler? Do you want to bring some light into dark times? Then there is now a nice and amusing way: The BRAVO archive opens its digital gates for free! From 1956 to 1994, the first issue of each year is available here. There's a lot to discover. For example, the first year, when BRAVO was still a film and TV magazine, with stars like Marilyn Monroe or Karl-Heinz Böhm dominating the cover stories. Or 1969, when The Beatles were the band of the year and Cornelia Greiner from Frankfurt was voted BRAVO GIRL of the Year. Or browse through the first issue from 1985, when "Ghostbusters" hit the cinema, a TV broadcast of "Gone with the Wind" caused a stir, and Duran Duran were given a star album. Travel back to 1992, when Roxette won the Golden Bravo Otto and the series "Beverly Hills 90210" adorned countless rooms as super posters. It's not only fun to discover who used to make youngsters shriek, girls go into raptures, and boys' heads spin. Even looking through the music charts of yesteryear or the television program from days gone by is surprisingly entertaining and brings back many fond memories. One can also smile about some advertisements, photo love stories, and of course, the legendary enlightenment page of the Dr. Sommer team. While some questions asked by desperate teenagers are simply timeless and should also be of concern to today's generation, there are also problems to be discovered in the older issues, some of which are amusing but others are downright frightening. So much for "everything used to be better in the old days". It's just fun to click through magazines that you bought yourself at the time or even browse through older issues. As a little extra, you can download the complete E.T. star cut for free. Many people considered BRAVO an essential part of their teenage years. Especially popular were Dr. Sommer questions with some quite dubious answers. From 1969, the "first time" rubric, first love, heartbreak, and more, was a regular fixture in BRAVO. The questions that are now answered by an expert team are cult favorites. Those who read the questions in their youth probably had two emotions: relief that they weren't alone, but also moments of wondering who could have such questionable experiences. Sex and teens in Germany: Where do they learn about it? The staff of Dr. Sommer, a popular advice column on Teen People and Bravo Web site, answer hundreds of letters from teens each week, covering topics like health, sex, changing bodies, love and relationships. The questions are those one would expect from uncertain youth trying to figure out what the heck is happening to their bodies, urges and emotions. Abby sammelt Drucke von BRAVO Magazine - Ein kleines Mädchen schreibt einen Brief an das Dr. Sommer-Team Ein kleines Mädchen hat geschrieben, wie ein Mann die Tr aufbrochen und bei ihm hergefallen ist. Nun fragt es den Dr. Sommer, was der Mann wollte.
