Topics for All Users For general information, feature descriptions, and details on topics such as Canvas Mobile, Help, Calendar, Courses, Dashboard, Files, Global Navigation, Inbox, Profile and User Settings, Rich Content Editor, and Web Services, visit the Canvas Basics Guide for all user roles. Updating the mediaType for launches from New Quizzes itemsAssignment Custom Parameter Data with Leading Zeros Stripped During Course CopyFor more information, please see Upcoming Canvas Changes.In this Canvas release (18 January), AI-supported translations are available in Discussions, Announcements, and Inbox messages when the respective feature options are enabled. The Discussion Checkpoints feature allows instructors to set multiple due dates for graded discussions, supporting different stages like initial posts and follow-up replies. In New Quizzes, a Student Analysis Report can be exported as a CSV, and instructors can migrate Classic Quiz question banks to New Quiz item banks using an updated checkbox on the Course Copy and Import Course Content pages. SpeedGrader has been enhanced for faster load times and improved stability, and the Submission Sticker feature option is now available for Assignment Enhancements.On the Account Level Grading page, admins can set an account or sub-account default grading scheme. Table of Contents Back to Table of ContentsBeta Environment Availability2025-01-18Production Environment Availability2025-01-18Location to Enable FeatureNoneName of LTI ToolNonePermissionsDeveloper Keys-manageRelated APIsNoneAffects User InterfaceYesAffected AreasDeveloper KeysRelated IdeasNoneSummaryWhen configuring an LTI key, admin can allow third-party tools to register for notifications. The Course Copy notifications are the first to be implemented, with additional notifications planned for future updates.Change BenefitThis update ensures tools can remain up-to-date with course changes, reducing manual updates and potential errors. This automation enhances efficiency, keeps data synchronized, and improves the overall user experience for administrators.Feature WorkflowAdd LTI Key Advantage Service OptionsTo enable notification registration, toggle on the Can register event notice handlers using the Platform Notification Service option when configuring an LTI key. Feature Video GradingAccount Level Default Grading Scheme[Delayed 2024-12-17] SummaryOn the Account Level Grading page, admins can set an account or sub-account default grading scheme.Note: Course-level default grading schemes can only be set after the Enable Course Grading Scheme option is enabled in the Course Settings of a course. Once enabled, instructors can select the grading scheme they want to use as the course default, which will override any account-level default grading schemes. If the Enable Course Grading Scheme course setting is not enabled, the course will inherit the account-level default grading scheme.Change BenefitThis feature simplifies grading scheme setup by allowing institutions to set a default grading scheme at the account or sub-account level, ensuring consistency across all courses.Feature WorkflowAccount Default Grading Scheme Drop-Down MenuOn the Account or Sub-Account level grading page, Click the Account default grading scheme drop-down menu [1]. Then, select the desired grading scheme [2].Account Level Grading Scheme Apply ButtonOnce a grading scheme is selected, click the Apply button. Account Level Grading Scheme Locations Used LinkOnce applied, the default grading scheme displays in the Account default grading scheme drop-down menu [1]. To view all courses the grading scheme is located, click the Show locations used link [2].Feature Video Back to Table of ContentsFeature options allow institutions to enable newly developed Canvas functionality according to their preferred time frame. Unless otherwise noted, all feature options are opt-in and do not require any action by a Canvas admin until a feature's enforcement date is announced. For a complete list of feature options, please see Canvas LMS Feature Options.A feature preview label indicates a feature option in active development, which is being built directly through user feedback. Feature previews deploy updates outside the regular Canvas release schedule and are posted in the Related Releases section in Canvas Releases & Deploys.Please reference the table below each feature heading for specific feature information. For general information about feature options, please see the Canvas Release Notes FAQ.DiscussionsAI Translation [Delayed as of 2024-12-17] Feature Option Name to EnableCourse AI TranslationEnable Feature Option Location & Default StatusAccount (Disabled/Locked)Course (Disabled)Beta Environment Availability2024-10-21Production Environment AvailabilityDelayed TBDSubaccount ConfigurationYesPermissionsInherent to user roleAffects User InterfaceYesAffected AreasAnnouncements, DiscussionsMobile App SupportNot availableFree-for-Teacher AvailabilityNot availableFeature Option StateProduction-readyRelated IdeasNoneSummaryWhen the Course AI Translation feature option is enabled, instructors and students can use AI-supported translations to translate text with Discussions and Announcements.Change BenefitThis feature provides users the option to translate text into different languages and promotes inclusivity by allowing people from diverse linguistic backgrounds to communicate and access information easily. It also enhances collaboration and understanding in multilingual environments, making content accessible to a wider audience.Feature WorkflowDiscussion Translate Text LinkTo translate text in a discussion, click the Options button [1], then click the Translate Text Link [2]. Translation Language Options Drop-Down MenuUsers can select from 100 available language options using the Language drop-down menu.Discussion Translation ViewOnce a language is selected, the discussion topic and replies display in the original language and the translated language. Multiple Language Selected ViewUsers can also select multiple languages by selecting additional language options.Note: To remove translations, refresh the page. Feature Video Embed Code:Question Bank Migration on Course Copy [Delayed as of 2025-01-21] SummaryInstructors can migrate Classic Quiz question banks to New Quiz item banks by using the Convert content to New Quizzes checkbox, previously labeled Import existing quizzes on the Course Copy and Import Course Content pages. Additionally, the Tooltip text is updated.Change BenefitThis update allows instructors to transfer question content from Classic Quizzes to New Quizzes without using quiz migration, greatly improving efficiency and saving valuable time.Feature WorkflowCopy Course Convert Content to New Quizzes CheckboxThe Import existing quizzes on the Course Copy checkbox is renamed Convert content to New Quizzes.Convert Quizzes Warning ModalThe Convert content to New Quizzes checkbox Tooltip text is updated.Additional DetailsAfter the copy or import is complete, all Question Banks converted to Item Banks appear on the Item Banks page of the new course, filtered under This Course.Feature Video SpeedGraderImproved SpeedGrader Experience [Delayed as of 2024-12-05] SummarySpeedGrader is updated for faster load times and enhanced stability. Additional interface updates include: A streamlined interface for the Section drop-down menuA clearer and more prominent No Submission alertAn improved interface for courses without contentThe Submission Status is updated to a drop-down menuRubrics are automatically displayed in the traditional viewMedia attachments and submission comments are moved and the delete icon is changed.Change BenefitThis feature enhances performance for a faster, smoother experience for users handling larger courses or complex assignments. Upgrading the backend technology improves SpeedGrader's ability to manage high-demand tasks more efficiently and reliably.Feature WorkflowSpeedGrader Sections Drop-Down MenuThe Sections drop-down menu is redesigned for a more streamlined and user-friendly interface.SpeedGrader No Submission AlertThe No submission alert is enhanced for better visibility and clarity. Empty Course NotificationCourses without content display a streamlined interface.Submission Status Drop-Down MenuInstructors can edit the submission status using the updated Status drop-down menu.SpeedGrader Rubric ViewRubrics automatically display in the traditional view.Note: When the Enhanced Rubric feature option is enabled, instructors can choose additional rubric views.Feature Video User InterfaceFull Screen Access Feature Option Name to EnableFull Width EverywhereEnable Feature Option Location & Default StatusAccount (Disabled)Beta Environment Availability2024-12-16Production Environment Availability2025-01-18Subaccount ConfigurationNoPermissionsAccount-level settings - manageAffects User InterfaceYesAffected AreasCanvas User InterfaceMobile App SupportNot availableFree-for-Teacher AvailabilityNot availableFeature Option StateProduction-readyRelated Ideas[New User Tutorial] Split New User Tutorial and Browser Full WidthSummaryRoot Account admins can use the Full Width Everywhere feature to fully utilize the available screen width. Previously, this required enabling the New User Tutorial feature.Change BenefitThis feature simplifies the user experience by allowing admins to enable the Full Width Everywhere feature without needing to activate the New User Tutorial. This provides a more streamlined setup process, giving users greater flexibility and more screen space for a more efficient and comfortable navigation experience.Feature WorkflowCourse View in Full ScreenWhen the Full Width Everywhere feature is enabled, the user interface expands to utilize the entire screen width.Feature Video Change Log updatesA Feature Preview indicates a feature option in active development. Users who opt in to the feature and join the Community user group can help improve the feature through direct feedback.The following Feature Previews have updates related to this deploy available in the User Group change log. When this feature option is available for general use, the feature option will be announced in the Canvas Release Notes.Assignment EnhancementsSubmission Sticker Feature OptionFor more details related to this release, see the Assignment Enhancements: Release Change Log.Enhanced RubricsRubric Assessments Imports and Exports Feature Option For more details related to this release, see the Enhanced Rubrics: Release Change Log. Whether you're a brand new Canvas admin or a long-time pro, there's something in the CCTA program for everyone. This course is for anyone who will be using Canvas to create and deliver content. We will start with an introduction to your Canvas profile and Dashboard, and then move into all of the pieces of Canvas that make up a course space. Throughout this course, we will guide you through the completion of your Canvas Certified Power User Checklist. At the end of this 12-week course, you will be ready to begin using Canvas to design your own courses and content. What is Canvas?Canvas is a Learning Management System. To learn more about Canvas terminology and definitions, visit How does Canvas define the terms used to describe its features and functions?Because Canvas is a web-based system, it doesn't need to be installed on your computer. However, you'll want to make sure that your computer and web browser meet the basic requirements to run Canvas.Canvas also has a free mobile app available for iOS and Android that is specifically tailored to students. You can learn more about how the mobile app features compare to Canvas on the web.What is the Student role?In Canvas, the Student role is most commonly used to enroll users who will participate in a course for course credit. Users enrolled as students can view course content and participate in course assignments and communications. Students cannot view and participate in a course until it is published and the course has started.Canvas for ElementaryCanvas for Elementary is a Canvas setting that displays a simplified interface and experience designed for younger learners.Canvas GuidesThe Canvas Student Guide has over 200 articles that each answer a question that relates to using the Canvas interface as a student. Each article also includes Next and Previous links so you can easily navigate to related content Student VideosYou can also watch videos for students. Canvas Certified Educator (CCE) is for anyone who uses Canvas for teaching and learning. No matter your current level of Canvas usage, the CCE program will provide you with the real-world application you need to start making impactful changes today! Breaking Change-Gradebook Icon Update for LTI Assignment and Grade ServiceFeature Enforcement:New Course and User AnalyticsFor more information, please see Upcoming Canvas Changes.Release notes outline upcoming customer-impacting changes that are expected to display in beta and/or production environments. Please note that features considered for future development are not included in the notes.Unless otherwise stated, all features in this release are available in the Beta environment on 2025-03-17 and the Production environment on 2025-04-19. Table of Contents Media: Canvas Media Player is delayed as of 2025-04-18 until 2025-04-24 Removed "New" from the Media Feature Updated Media: New Media Player with Improved Accessibility and Usability- added: Update:This feature will gradually become available worldwide between April 19 and April 30.
